AL PUBLICO
La casa de Dillemann & Co. ha creido conveniente llamar la atencion publica por medio de los diarios sobre una cuestion de marcas que ha tenido con nosotros y que ha concluido ahora con nuestra mas completo triunfo.
A estas publicaciones contestamos
1. Que la marca carpa (UN PESCADO) es la propiedad de los fabricantes en cuchilleria Srs. Contaret Denise & Fils quienes lo poseen hace mas de 60 años.
2. Que nosotros hemos presentado poder de dichos fabricantes.
3. Que si la casa de Dillemann & Co. ha hecho registrar aqui en su nombre la marca pescado era con el evidente objeto de usurpar los derechos de nuestros representados.
4. Que es ridiculo de Dillemann y Co. llamar imitation y falsificacion los cuchillos importados por nosotros y comprados al fabricante (verdadero dueño de la marca de 60 años.)
5. Que Dillemann & Co. no son fabricantes sino introductores como nosotros, no tiene valor su pretension de haber anotado la marca Pescado como suya en un pueblito de Francia cuando debian registrarlo en el Ministerio de artes y oficios de Paris lo que no consta que hayan hecho.
6. Que por toda contestacion a todos los desahogos de los Srs. Dillemann y Co. agregamos el decreto del Gobierno Nacional.

Por los fundamentos del precedente dictamen del Sr. Procurador General de la Nacion queda sin efecto la resolucion de 24 Octubre 1878 por la que la Oficina de Marcas de Fabrica y Patentes de Invencion denego a los Srs. Mantels y Pfeiffer la marca CARPA que estos solicitaron en representacion de los Srs. Coutaret-Denise et Fils para articulos de cuchilleria, y vuelva el espediente a dicha Oficina para que sin perjuicio a los Srs. Dillemann & Co. verifique el registro correspondiente en los terminos de la Ley.
Comuniquese, publiquese e insertese en el R. N.
ROCA
A. del Viso.
Como se ve este decreto pone fin a cualquier polemica y no justifica de ningun modo el proceder de la casa de Dillemann & Co. a pesar de sus 32 años de vida comercial en esta plaza.

NATIONAL INDEBTEDNESS

So much stress has been laid on the increased indebtedness of this country by the new loan that we are tempted to prove by comparison that in reality the Republic owes almost nothing. Not that we wish to patronise an extravagance by the Government or an overtrading by our merchants; on the contrary, everything conspires to urge the greatest economy on the part of the Cabinet and caution by our commerce; but it seems to us that it is only now that both at home and abroad people are beginning to find out what this country really is. We are admittedly on a new start; everything in the market points to a new departure. If speculation has sprung up, it is in something more noble than mere building sites or patches of quintas and fields in our suburbs, as in the year 1873. Fresh money is going so very fast into estancia lands and cattle and sheep and nan-dubay posts and wire fences, that we cannot keep the run of all the sales; but all these are productive and self paying, and at the rate cattle are going on to the new camps, we shall soon have more fat novillos than what we will well know what to do with.

Our Minister of Hacienda has but to establish in his new presupuesto what is termed a financial equilibrium, and then the demands of the Government will no longer weigh on the market. Our productions are growing as fast as the country itself; capital that is choked up in Europe at 1½ to 2 per cent per annum is at last finding its way out here, where with the very best guarantees it earns 7 and 8 per cent per annum; and it is not speculation, it is not public loans, it is not borrowed money that yields this interest. It is the cows and the sheep of the Plate that pay for everything; it is our splendid pasturages and our inexhaustibly fertile soil. With peace and administrative economy this country may reach any future that the most sanguine can sketch; we have faith in both; General Roca's Government is pledged to both, and hence it is that it affords us pleasure to remove from the public mind the impression that the new loan is a weight greater than the country can bear.

The last number of the London *Economist* gives a very able article on the Australias and their indebtedness, and some few of the figures we find there, and other data which we have compiled from equally reliable sources, will show our readers how little this country owes when compared with others of less resources, but of infinitely greater pretensions.

Tasmania	27	1 10 0
Western Tasmania	17	1 17 0
Total	43/10	2 2 6
Arg. Republic	9	0 14 0

But to simplify this table let us take for instance New Zealand and the Plate, and hold up the mirror to the bankers and capitalists—

	New Zealand	Riv. Plate
	—	—
Population	470,000	2,500,000

The following tables will instruct our readers as to the position of the Plate compared with countries not so heavily weighted as New Zealand—

Thus, for instance, the external debts of the Canadian Dominions only represent £20 per head, as compared with £43.10 in the case of the Australias, £74 per head as in the case of New Zealand, and £15 per head in the Cape of Good Hope.

Let us inquire what traffic is there in Australia which can find employment for railways costing £55,000,000? Here are Governments which have provided railways at the rate of one mile for every 660 inhabitants (New Zealand has one mile for every 402 inhabitants, and Queensland for about every 300), while Great Britain possesses only one mile to every 2,000 inhabitants. There is, indeed, only one parallel case on record, that of the United States, where the railwaye are at all as extensive per head as in the Australias. Were the Canadian Pacific line built, Canada, too would rival Australasia in this respect; but, judging from present appearances, before that work may be finished, these Southern colonies may have doubled their railway system. Only a few days back, advices arrived to the effect that Victoria had voted the construction of a further 471 miles of line. But the commercial utility of railways must be measured by the traffic which they have to carry; and it must be borne in mind that although these colonies have a population of only 2,750,000, they are possessed of 66,000,000 sheep (double the number in the United Kingdom), nearly 8,000,000 cattle, that in 1879 they raised 36,300,000 bushels of wheat (more than twice as much as they could consume), 17,700,000 bushels of oats, 3,500,000 bushels of barley, 6,400,000 bushels of maize, and 424,000 tons of potatoes; in addition to which their traffic in minerals, in agricultural appliances, and under other heads, was already very considerable. In wool alone, Australia sends us more than two and a-half times the quantity obtained from the entire home clip, while last year we received from the same quarter upwards of 4¼ million cwts of wheat, in addition to flour, other cereals, hides, tallow, meats, gold, copper and tin. The distances of the squatters and miners from port being in a large proportion of cases very considerable, and the navigable rivers being few, these producers are greatly dependent upon railways to find a market for their productions; and it will be a fairer way to test the utility of these public works by the trade of the colonies than by the population, which can be merely a guide to passenger traffic. This we shall proceed to do:—

In conclusion the *Economist* says: South Australia and Queensland have latterly committed themselves very largely to railway extensions, and their position in the scale will probably be very unfavourably influenced thereby. The short sections as yet opened in Western Australia are scarcely available for any

efficient comparison. New Zealand and Queensland have unmistakably been going much too fast. We have just applied the test to them for merchandise traffic and found them wanting, while in the population test for passenger traffic they were still more lamentably deficient. Enough has latterly been written respecting New Zealand, and taxation is shown to be sufficiently onerous within the colony to cause wiser councils to prevail. At any rate, there is in that instance much talk of retrenchment. But Queensland is in the midst of great railway extentions, as yet far indeed beyond the requirements of her population. In addition to the 305 miles under construction on the 31st December, 1879, we find that a further 600 miles had been authorised by the Legislature, making a total of not less than 1,394 miles, or one mile to less than each 160 of the present population, or to each £4,700 of the present imports and exports. Should, therefore, she venture to come upon this market for loans to construct the suggested trans-continental railway—many hundreds of miles in length—to Port Parker, or, indeed, for any other railway extensions whatever, it is to be hoped that even the reckless spirit in which subscriptions to new securities is being made will not prevent their decided rejection. South Australia should be cautioned; New Zealand and Queensland must, for the sake alike of their solvency and our investors, be told firmly to wait. We do not wish to write in any alarmist strain; but they have overtaxed their strength, and a period of careful nursing is the one efficient remedy.

It is to be regretted that any such precautions should be necessary. The fertility of New Zealand is very great, and for agricultural purposes the percentage recorded below would, were there no financial drawbacks, point irresistibly in favour of that country :—

AVERAGE YIELD PER ACRE.

	Wheat Bush.	Oats Bush.
Victoria	13	18½
New South Wales	14½	19
New Zealand	27½	33
South Australia	8½	12½
Queensland	12	10
Tasmania	17½	24
Western Australia	11½	16½

MEANS OF SIX YEARS.

	Potatoes Tons	Hay Tons
Victoria	3½	1½
New South Wales	2⅝	1⅜
New Zealand	5	1½
South Australia	3½	1½
Queensland	2½	1.3
Tasmania	3½	1½
Western Australia	2⅜	1½

These figures deal rather hardly by South Australia, which for three years in succession suffered from bad harvests. Taking the Australian colonies all in all, however, New South Wales stands out preeminently as the one offering the greatest attractions to emigrants from this country. Free-trade is nourished, taxation is low, the supply of fairly fertile land is practically boundless, its herds are by far the most numerous in the entire group, and with moderately enlightened guidance we may with certainty anticipate the most rapid development. There is no need to pen heroics respecting the future of all the Australias; their future will be great, if their impatience to stimulate growth by artificial means can only be reasonably restrained.

The Minho's Mails

London, March 7th.

Our special correspondent at Newcastle states that Sir Evelyn Wood had reached that place on the 4th inst., and would remain there for the present. A close watch was being kept by the Boers on the Amajuba Hill, and their scouts were very active. An envoy from the Swazie King, in an interview with General Wood, mentioned that the Boers were endeavouring to coerce the tribe into joining them against the British. The Swazies declared their intention to remain loyal, and were advised by the General to remain quiet unless they were attacked.

An official list of the casualties in the action on the Amajuba Hill, on February 27th, has been issued by the War Office and the Admiralty.

Dissatisfaction, our Vienna correspondent telegraphs, is professed by the Ambassadors with the choice of the Turkish delegates. The fact is, however, that the character of the men appointed is of very little consequence, since the Greek frontier difficulty, so far as the European Powers are concerned, will be treated at the Palace, and not at the Conferences of the Ambassadors with the Ottoman Delegates.

Yesterday the Ambassadors and the Ottoman Delegates had their first formal conference, but nothing definite was known as to the result of their deliberations.

At a recent sitting of the St. Petersburg Assembly of Nobles, a motion was carried amid applause, proposing that the Emperor should be petitioned to grant the nobles the right not only of considering their own needs, but also of making representations to the Government for the removal of evils connected with the local administration, even when they resulted from the general laws of the Empire.

A Papal Encyclical is shortly to be published prescribing the observance of a Jubilee for Italy, during the months of April, May, June, July and August; and during October, November and December for other countries.

From a high stand in front of the White House at Washington, Gen. Garfield, accompanied by Mr. Hayes, General Hancock and others, on Saturday afternoon reviewed the procession of troops and civil organisations. The composition of his Cabinet has been made public, and he has requested the members of the outgoing Cabinet to remain in charge of their respective departments for a few days longer, pending the installation of their successors in office. Mr. James G. Blaine is appointed Secretary of State. The President's inaugural address has been very favourably received by the press throughout the country, without distinction of party.

Her Royal Highness Princess Louisa left London on Saturday morning, and crossed the Channel on her way to Italy, via Paris.

General Roberts left the Paddington Terminus of the Great Western Railway on Saturday for Dartmouth, 'en route' for South Africa. There was a large attendance of spectators to witness the departure. On reaching the station a letter from the Queen was handed to him by a Royal messenger. The Duke of Cambridge, Mr. Childers, Lord Chelmsford and Sir Bartle Frere were present to take leave of the gallant general. Lady Roberts proceeded as far as Dartmouth. Owing to the fog prevailing the Balmoral Castle was not able to start till last evening.

At a meeting of the Westminster Liberal Union, held on Saturday, Sir Arthur Hobhouse, Mr. James Beal and others strongly condemned the Transvaal policy of the Government, and a resolution was passed suggesting the appointment of commissioners to negotiate peace.

The inquiry into the circumstances of the collision at Dalston Junction on the 26th ult., closed on Saturday, the jury returning a verdict to the effect that the accident was due to a mistake in the signalling, the origin of which was not shown by the evidence.

In the Stock Markets on Saturday, some of the Home Railways declined ¼ to ½ per cent., but North-Eastern rose ⅜. American and Canadian lines were steady. An inquiry prevailed for Foreign Bonds, and Buenes Ayres, Peruvian and Turkish advanced. Consols showed no movement. An influx of £52,000 in gold to the Bank was notified.

EDITOR'S TABLE.

The R.M.S. Minho brings London papers to 7th ult., and we give extracts in another column. There is nothing very exciting in them. Things appear to be gradually quieting down in Ireland. Part of the news is in our supplement.

The rain on Monday evening imparted a stewing feel to the ambient yesterday, the sun being fearfully hot. The rain was general in the camp, but in most places it only came down 'despacio', some few districts being favoured with a 'garua'. There will be more 'agua' shortly.

The death of Dr Bernardo Pereda, at the ripe age of 100, was announced yesterday. In 1814 he was a member of the Tribunal of Concordia and in 1852 retired from the Supreme Court on a pension, having honourably filled numerous official positions under several administrations.

No fewer than three young girls eloped from their homes in Belgrano last week. They cannot have read of the sad fate of the poor girl who was enticed to an estancia in Baradero from this city and subsequently abandoned in so heartless a manner that she is now a raving lunatic in the Convalescencia.

The usual tinkering and tampering with the British Army is now going on in Parliament. Mr. Childers's new organisation scheme is full of vexatious petty details, changing the dress of the Scotch regiments, altering the time-honoured designations of all, etc. etc., which have caused a deal of discussion in the papers. The following paragraph from the *Times* shows the very large proportion of Irish soldiers in the army :—

"Sir Patrick O'Brien writes, with reference to the remarks he made on Mr Childers's statementon Thursday night, that he said there were 16 regiments bearing a Scottish designation, whereas the number of Scotchmen in the Army was under 15,000; but there were only six regiments bearing an Irish designation, while there were 40,000 Irishmen in the Army. He asked Mr. Childers not to destroy the individuality of two historic regiments, like the 87th Royal Irish Fusiliers and the 88th Connaught Rangers, by affiliating them, but rather to add to each regiment one of the old Indian regiments, which have had no local connexion with the United Kingdom."

At the trial of the rifle invented by Mr. Costa, which took place on the 27th inst., at the 11 de Setiembre Battery, the following results were obtained :—The Costa rifle was first fired in order to find the initial velocity of the ball, giving 500 metres per second at the first fire, 527 the second, 472 the third and 505-12 the fourth, whereas the Remington showed a velocity of 446 at the first, 448 the second, 475 the third and 425 the fourth, The medium of both rifles resulted in 50-12th more velocity in favor of the Costa rifle, or say 3,000 met. more per minute. The medium velocity of the Remington is 450 met. and of the Costa 501-12th met. per second.

Lima refuses to be comforted. Every house in the beautiful city of the Incas is now kept closed, with blinds drawn, day and night. The fair Limeñas will neither sing, play the piano, nor even laugh, so long as the Chilians are there, and the invaders are reduced to a pitiable state of 'boredom,' as Mars, of whatever nationality he may be, cannot get on without at least an occasional glimpse at Venus, and this the Peruvian beauties are determined that he shall not have. There appears to be no progress whatever making towards a treaty of peace,

The men who are 'running' the Italian Exhibition understand their business. For the future the 'entradas' will only costfive paper dollars on Monday.

Faust will be given in a few days by the French opera company. This opera sounds very well in French, which cannot be said of all Italian compositions.

We are glad to see that the verdict of our colleagues in reference to Messrs. Parry's Argentine Corned Beef, made by McCall and Co., is the same as our own—Incomparable. It speaks volumes for the progress of the country to see Argentines appreciating Corned Beef which, a few years ago, was looked on here as quite a plebian dish. The man who can appreciate corned beef sliced to the thinness of a wafer, with a dim smear of Colman's mustard on it, must have his stomach, if not his heart, in the right place.

The distribution of prizes at Mr Neumeir's well known 'Colegio Nuevo' in Calle Rivadavia comes off this evening. The programme is most attractive, a novel feature being gymnastic exercises all through the evening, interspersed with declamation and music, Mr Neumeir does well to have gymnastics taught in his school: and Argentines would soon become a bigger and a stronger race of men if all the schoolmasters in the republic were bound by law to follow his excellent example.

Talk of the rapid change of temperature here last week. We saw a friend and subscriber (all friends should be subscribers, otherwise they are no better than how-d'ye-do acquaintances) from Corrientes yesterday who told us that the fall in the thermometer there was from 90 to 35 Fahrt. in two days.

The news about Lopez Jordan last week was that he was looking for an estancia in Corrientes, to settle down to sheepfarming. This week they say he is plotting a new invasion of Entre Rios. There is, probably, not a word of truth in either story, and both have been current fifty times before.

Chilian Boundary literature is again surging up in a tidal wave. Mr A E Zuniga has kindly favoured us with a copy of his 'Breve Estudio' on this important question, which we will read and digest on the first opportunity.

Father Jordan, the eloquent Jesuit orator, will preach on Good Friday at the church in Flores.

We are truly rejoiced to see that our energetic Lord Mayor has taken up the question of overladen carts in the streets, which cause such numerous cases of revolting cruelty to the poor horses under them. For the future the cartmen will be obliged to carry a 'libreta,' in which the weight their vehicle can legally carry will be set forth, and this they must produce when called on by the police or Municipal Inspectors, and the same figure must also be painted on the cart. The question is, will our somnolent 'vigilantes' second the Lord Mayor in this most necessary reform?

The *Tribuna Nacional* publishes a very stiff and sensible article on the burst-up of the South Pole Expedition and the utter absurdity of those who think this country ought to saddle itself with the cost of such a chimerical excursion.

H.M. gunboat Dotterell arrived at Montevideo yesterday from St. Vincent.

Our colleague, *La Tribuna Nacional*, has espoused the cause of the unfortunate holders of Municipal Bonds, and calls on the Minister of the Interior to come to their rescue. We sincerely hope he may. The holders of these securities have been very badly treated.

We feel great pleasure in welcoming to town Mr. Oliver Hayes, of Corrientes, son of our famous correspondent duning the Paraguay an campaign, 'Sinbad.' We are glad to see him in excellent health, and have to thank him for a present of some splendid Goya cheese. Who does not relish this famous cheese. When our Corrientes friends wake up and begin to export it to Europe Stilton may look out for its long-won laurels.

We got a very appetising present yesterday, thanks to not having a Spanish-English Dictionary at hand when referring in our last to the price of 'cameronets' in Panama. Two beautifully got up tins, with the well-known commercial names of Moore & Tudor on them, enable us now to state that 'camerones' are 'Shrimps.' The Barataria Shrimp is the most delicious thing in a salad or mayonnaise that a 'goumet' can imagine. Shrimps and Goya Cheese go splendidly together for lunch.

The French Government, which is by far the best in the world for looking sharp after the food of the people, has recently prohibited the sale of Salycilic Acid, or any substance in which it is contained, as being poisonous. This acid has been much in vogue here of late for preserving meat and all kinds of food during hot weather.

The South Pole Expedition has fallen through, as the Geographical Society of Italy has thrown it over board, having an African Expedition on hands. Lt. Bove now asks the Argentine Republic to pay for his trip to the South Pole, but we fear it would be too expensive a luxury for this country, but, no doubt, some wealthy European nation will take it up.

Dr. Brackembush, of Cordoba, recently made the ascent (4,700 metres) of the great ore-bearing mountain, Famatina, in Rioja, and intends publishing all about that famous mineral district.

The *Zonda* of San Juan says there is every likelihood of a very large and profitable trade in cattle with Chile this year, and prices are rising up there.

A Chilian officer in Lima, writing home to his friends, says that the Peruvian men are not worth their salt, and it would be far better for Peru if it were ruled by its women, who are full of spirit, whereas the men have none. This is a terribly severe criticism from a victorious foe.

There was but a slight business in gold today, and there seems to be no speculation going on either way. The market has a heavy appearance, and we note that those who usually dabble most in gold do not make heavy sales, speculating for a fall, which shows that gold is left to itself, a most unerring sign for those who know how to read the market Prices opened at 28.50 cash, dropped to 28.45, and closed at 28.50; the cash sales were not so heavy as yesterday and only amounted to 67,631. Prices for the end of the month rule five cents weaker and closed at 28.45, having opened at 28.50. Sales for May at 28.35.

Cedulas rule very firm, opening at 93¾ and closing at 94. The balance-sheet for the month was out to-day, and as a matter of course attracted notice; some statements made in the papers about the balance the figures now published relute.

National Bank Shares continue to march on, and the whole market seems now to be into the stock. Some of the heaviest speculators who sold last week are now buying back again, and hence it is that the very heavy operations marked on the board have very little effect on the market. To repeat all that is said about the stock and its future would be to fill up this column; suffice it to say that the stock is considered the cheapest in market, and many outsiders who are buying expect to keep the shares until they reach par. Over four thousand shares were sold to-day between sales at the ring and at afterhours, and yet the market has advanced considerably on yesterday's price, and shut firm.

The Minho's mails were delivered to-day; we note that Eastern Argentine have advanced, closing on 7th March at 10¼, they will soon be at par. Southern Railway Shares, 64 per cent premium. American exchange has risen in New York, which stops the export of gold from Europe to the U. States.

It may interest the market to know that from 12th to 31st March the arrivals of wheat and flour at Rosario by Central Arg. Railway were :

Wheat ..... 16,000 sacks
Flour 4,300

The Provincial Bank now discounts very liberally, the amount averages 6 millions each discount day, which is a great help; it was hinted on Change that next week paper money will be much tighter than at present.

The following sales are reported—
3500 q.q. beef for Havannah, Rocs 46
3000 do do Rosetto 46
30 pipes marea grease 46
50 do do 47
1000 mat. dry hides. 30 lbs, 55 rls gold.

Two charters for bone ash, one in port at 18s and 5 p cent, and the other at 22s for Gualeguay.

There is great fuss and talk in the market about the proposed move of Gov. Dr Roach to expropriate the Southern Railway, a most injurious and awkward measure. The line represents a value of 4 millions sterling, and instead of talking of expropriating it, Dr Roach ought to use his influence to get the line extended to Bahia Blanca, the proper Capital of this province.

The news from the Plazas is that wools are moving off much faster. At the South market fully 30,000 arrs. sold, some lots fetching very good prices. Messrs. Peyredieu and Bradley topped the market at 108, and some other lots fetched 105.

The mails from Rio bring us advices of a new American Telephone Company started in Boston and in Rio, Mr. H Sturgis Russel, Boston, President, and Mr P Mackie, Rio, Vice-President; capital 300,000 pats. We want a similar Co. here.

The death of Major Waterhouse, M.P., Director of the Central Argentine Railway Co, is announced by the mail. Deceased was a much respected and representative man, and his loss on the Board will be felt.

Mr J W Ackeroyd, of Rosario, has arrived back from Europe in the Minho.

Mr Caratassa, one of our leading private bankers, leaves for Europe in the Douro. Few men in Buenos Ayres occupy a more deserved ly high position in this city. His bank is one of the first in the Plate, and its progress and success form brilliant chapters in the history of this market; we desire for him a pleasant trip, and hope at the end of the year to have the pleasure of welcoming him back to the Plate. Mr Schmidt, of the leading barraquero firm of Terasona & Co, San Nicolas, also leaves for Europe in the Orenoque, and Mr P. Gannon, one of our wealthy Irish sheepfarmers, returns to Clara in the Kings County. Thus old Europe is getting paved with River Plate friends, who will always have a good word for this country.

Gold at afterhours ruled about the same, possibly 5 cents weaker than at the ring, as some sales were made at 28.45, but the market may be reported closing at 28.50 sellers. Nat. Bank Shares firm at 82½ sellers for end of month.

Messrs A Bullrich & Co. will sell on 21st inst some splendid Rambouillet rams imported from France by Mr Lezama.

Exchange, a shade harder, bills passed at 49½ and 49⅝, and on Genoa at 5.25-26, on Antwerp 5.35, and on Paris 5.23, on Rio drawers 11.250.

Mr Christophersen, of Montevideo, who has arrived up, was enveloped in friends when he entered the Hall; he reports the chief business going on at the Mount is sea bathing.

The most important news on 'Change was from the Western Railway, the opening of the bids for the prolongation of the line: we are not at liberty to give the bids, which will be decided on Saturday, but the names of the European firms that bid for the work are really a surprize to all and show how fast this country is coming to the front in Europe: the bids were—

England 3
France 1
Belgium 1
Germany 1

We may state that the greatest firms in the world bid for the work, and if one renowned firm got the contract it may lead to a new departure in the affairs of this country.

As appears by telegram in another column hides are down in the U. States.

The extension line of the Belgrano tramway to the Palermo Park is now being constructed, and will soon be finished, it will prove a great improvement.

A sale of Nat. Bonds at 88 at afterhours is reported, this, of course, ex coupon.

Some 20 of the finest Negrette rams that ever came to the Plate arrived to-day in the German steamer Bahia, for account of Mr Fernando Brunkhorst. These animals are at present at the barraca of said gentleman.

At Baltar & Quesada's to-day there was another demonstration crowd, and the street blocked up with bidders. Mr Felladero of the firm was driving up and down in an American gig showing off the horses for sale. For the elder residents of Buenos Ayres the sight was indeed a novel one, and indicative of the great push in the auctioneering business, and the rapid development of the horse breeding business in this country; soon Messrs Baltar and Quesada will be selling horses in Calle San Martin for the London market.

The news on Change this afternoon is, that there is increased movement in wool, and all the large houses buying strongly, some parties who left last month for Europe, thinking that there would be nothing in wool before June, erred.

Last night the passenger mole was almost crowded with people embarking in the Cosmos for Montevideo, many of them in order to catch the Galicia, which is to sail from Montevideo on the 6th inst for Europe. Amongst those leaving for Europe was the well-known and esteemed dry goods importer in Calle Moreno, Mr. Theodor Hilarius Kalko, who after a residence here for about nine years, leaves on a recreation trip to Europe and his mother-country, Denmark, intending to return here in about six months. The many of Mr Kalko's countrymen and friends who accompanied him to the mole, and even on board the Cosmos, to bid him farewell, shows how much he is esteemed by all who know him. We wish him a pleasant sojourn and happy return to Buenos Ayres.

The following is the Fifth Annual Report of the Pagare Committee, presented at the General Meeting on Saturday last, 2nd inst.

The undersigned Committee, in presenting the 5th annual report, have the pleasure to inform you that, during the time they have held office, no infraction of the rules; that required their interference, has been brought under their notice; nevertheless, they believe it to be their duty to observe that, during the last two or three months, there have been complaints that some of those who signed the "Convenio" have violated clause B of Article 1 by delivering goods before the end of the month, accepting for them 'pagares' the due dates of which ran from the end of the following month. As no proofs that would justify the Committee in taking the prescribed steps in the matter have been laid before them, it is to be supposed that the infractions alluded to, if any, were involuntary: but, as the Committee feel convinced of the great advantages to be derived from a faithful compliance with ALL the rules of the 'Convenio', they call the special attention of all those who have signed it to the complaints noted, in the belief that so manifest a breach of the spirit and letter of the article referred to will not be tolerated, as, if it were, it would inevitably lead to the gradual abolition of the 'Convenio' and bring back the deplorable state of things existing before its initiation in 1876.

During the past year two General Meetings of the signers were called—one to consider how the interests of Foreign Merchants here could be better protected, when threatened by the events of June and July last in this city (Fortunately the prompt termination of those events left the Special Committee named for the above purpose nothing to do). The second meeting was to consider how to avoid the frequent losses which are incurred in these sales called "al contado" (for cash) but which are in reality at from four to six weeks' date, without the seller holding any document to vouch for the liability of the buyer. The small number of members that attended this meeting prevented any effectual remedy for this evil being adopted, and the Committee, greatly to their regret, had to leave matters as they are. They consider it a duty to call the special attention of this meeting and of the incoming Committee to the matter, in the hope that means may be found to diminish the losses suffered through this abuse of credit.

It is cause of satisfaction to the Committee that they were able to arrange amicably some differences between members of the association and their buyers, and also give important information to the signers in reference to new firms in this market, and others which had changed their style and title; and while on this subject, the Committee wish to remind the signatories—in consequence of some unintentional infractions having been reported to them—of their obligation not to open credits with new firms until these have complied with the regulations mentioned in the last annual report.

Thanks to the repeated remonstrances of the Committee, the duty of 40 per cent on double-hemmed handkerchiefs ("pañuelos doblad illados") and other similar articles has been reduced to 25 per cent as charged on other woven goods. The Committee have also devoted attention to the necessity of a reform in the Custom House Regulations in reference to security for duties, and in view of the favourable disposition in the matter of both the Minister and the Administrator of Revenue, to consider just demands by the mercantile body, we are of opinion that a representation, in due form, to the Superior Government, would bring about the reforms desired; but, as the consent of Congress would be necessary, it would be advisable to seek the co-operation of the Centro Comercial in any steps taken in this direction.

During the year the Committee have sent to Liverpool 33 telegrams, of 374 words, at a cost of 1,543.36 Hard Dollars, and have received 3 telegrams, of 30 words. As reported to the subscribers in the circular issued last September, an agreement has been come to with the Liverpool Committee for the despatch of one telegram in the beginning of every month, to embrace the chief news of interest for this market. The number of subscribers to the telegrams sent is now 34 (the same as last year) and to the telegrams received, 29.

Of the subscribers elected on April 2nd, 1880, to serve on this Committee, Messrs Meyn and Cowell refused to accept and were replaced by the 'suplentes', Messrs Blagden and Stamm; and during the year, the Committee lost the valuable assistance of Mr Niebuhr, who was replaced by Mr Staudt. On the present occasion, one of your chief duties is to elect seven members and 5 substitutes, to replace the outgoing Committee.

The subscribers will find annexed the Treasurer's account current, showing a balance of $f.2,066 to credit of the new Committee—and the outgoing Committee have now only to congratulate the signatories on the unanimity which they all displayed in assisting them in the discharge of their trust, hoping that such unity of action may continue until the few who still keep aloof from the 'convenio' are induced to join it.

MICHAEL CARROLL,
Chairman of Committee.
W. GRABAU,
Secretary and Treasurer.

El Viernes 8 de Abril,
A las 2 de la tarde,

Venderemos al mejor precio y dinero de contado en uno o mas lotes y por cuenta del Sr D. Matias Ramos Mejia, este magnifico rodeo, compuesto de:

650 cabezas mestizas Durham, verdaderas Short-horn, que se pusieron en rodeo en un solo potrero, alambrado desde el año 1862, tienen por origen el troso mas escojido de la hacienda que vendio en esa epoca la afamada estancia del Sr Alzaro (de Canuelas) habiendo sido anteriormente del origen de los primeros introducidos al pais por el Sr. Miller y nunca han sido servidas sino por toros puros de lo mejor, importados uno y otros de la renombrada cabaña de los 'Tapiales,' por cuya razon tiene este ganado la misma pureza de sangre, ofreciendo la ventaja que la paricion de los ultimos años esta toda orejana.

Es precisamente de este ganado de donde se extrajeron las magnigcas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuartas de leche sin apurarlas.

En el rodeo que se vende hay gran cantidad de estas tamberas.

Se ve, pues, tomando su origen y la fecha (1862) que este ganado es clasificado de mestizo por su proprietario, cuando sus crazas las clasifican hoy de ¾ y ⅞.

La venta se hara por todo lo que pise.

Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un breck a 4 caballos, que en 2½ hora conducira a los a los interesados a visitar las haciendas hasta Mari Ruincul.

Dr. J. COLLIS BROWNE'S

(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy or any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

WAR IN THE TRANSVAAL

AN ARMISTICE AGREED TO.

REPORTED OUTRAGE BY THE BOERS

Newcastle, March 6th

An outrage by the Boers is reported here. Dr Barbour, accompanied by a man named Dyas as assistant, proceeded under the auspices of the Red Cross Society—some say by invitation of the Boers themselves—to attend on the wounded.

On approaching the Boer camp they were arrested by the veuettes and taken before Joubert, who charged them with being spies.

They were tied to a wagon nearly three days until heavy rains set in. They were then ordered across the border under escort.

On reaching the boundary the Doctor's horses were taken away by Joubert's orders. Barbour and Dyas then proceeded to walk, and had got about forty yards away when the escort fired upon them.

A ball entered Barbour's ear, and passed through his head, death being instantaneous.

Dyas was also shot through the back, and feigned death. He has been brought here, and, though badly wounded, it is believed he will recover.

Sir Evelyn Wood and Staff left this morning to meet Joubert near Mount Prospect, where they will hold a conference.

Owing to the heavy rains, the reinforcements are detained on the roads.

It is generally believed that Sir Evelyn Wood's instructions are to maintain a passive attitude until the arrival of Sir Frederick Roberts.

When General Wood left this morning it was generally stated the object was to meet Joubert, and to consider certain proposals made by the Boers for an amicable settlement of the present difficulties.

This was disbelieved in many quarters, but it now turns out to be perfectly correct.

General Wood met Joubert near Mount Prospect, and, after a long consultation, an eight days' armistice was agreed to, in the hopes of a possible permanent peace and the settlement of all matters in dispute.

It was arranged that the beleaguered places, including Pretoria, Potchefstroom, and Wakkerstroom should be allowed to receive eight days' provisions.

Sir Evelyn Wood has left Mount Prospect, but will not return till midnight.

The announcement of this news has been received with mixed feelings. Many condemn a settlement at the present moment, when the Boers are in full possession of the field, because it is feared the Dutch will make the Transvaal unbearable for English settlers. This view is also shared even by many anxious for peace. In military circles the feeling is naturally somewhat against any settlement till our defeats have been avenged.

I believe the Boer demands are—a complete amnesty to all leaders; the entire freedom of the Transvaal from British sovereignty; no interference in Transvaal affairs; and the province to be free and unfettered.

The remainder of the 58th have been ordered here from Mount Prospect, whilst the 97th are to make a good stronghold on a height near Schain's Hoogte.

A close watch is kept up by the Boers on the Amajuba Hill on all movements along the roads, and their scouts are very active.

An Envoy from the Swazie King has had an interview with the General touching the action of the Boers in endeavouring to coerce the tribe into joining them against the British.

The Swazies have expressed their intention of remaining loyal, and have asked what course they should pursue. The General has advised them to remain quiet unless attacked—and then to defend themselves like men.

LATEST FROM BRAZIL.

—William Morris, second mate of the British barque Raven, fell overboard in this harbor on the 11th inst. and was drowned. His body was recovered on the following day.

—The crusade against violet ink continues. The minister of war issued instructions on the 4th inst. that documents written with this ink should not be received in his department.

—From the frequency and character of the rains which we are now experiencing, it is thought that the old-time rainy season is returning. For the time of year the health of the city is exceptionally good.

—Decree No. 8,009, dated 2nd inst., authorizes the Villa Isabel tramway company to extend its track from the Rua S. Francisco Xavier through those of Itamaraty, D. Maria and Gonzaga Bastos, joining the line of the Boulevard Villa Isabel.

—On the 6th inst. at 5 p.m. an intoxicated soldier of the 1st regiment of light cavalry, named Joao Francisco da Silva, tried to show off his valor in the Rua da Alfandega, sword in hand. He first wounded a peasant in the face, then tried to kill a lieutenant of the same regiment and finally wounded three policeman. With much difficulty he was disarmed and taken to the barracks of the 1st battalion of infantery.

—Mr. John Cook, well known in Rio de Janeiro and in the province of S. Paulo where, with some slaves he possessed, he occupied himself in erecting coffee machinery, committed suicide near Jundiahy in that province. His body was found hanging to a tree in the road by the river Anhaugabahu, and close to it a tin box containing 20 apolices and his will, by which he liberates his eight slaves and leaves the remainder of his property to his brother who is residing in Rio. The deceased was 76 years old.

—According to the daily mortality reports of the Misericordia hospital the total number of deaths from all causes, in this city, during the month of February was 914, which gives a daily average of 32,6 and an anual average per thousand of 36.7. The number of deaths from yellow fever was 54, other fevers 100, and consumption 136. For the same month of last year the deaths from yellow fever numbered 420, from other fevers 164, from consumption 138, and from all causes 1333; daily average 45.8, annual average per thousand 51.6.

—On the 6th inst. at half past four in the morning a Portuguese, named Antonio Pereira Brandao, was bathing at the Praia da Saudade in Botafogo, in company with several other persons, when he was suddenly heard to call for assistance. But before such could be rendered to him he was seen to sink; his body not coming to the surface again until an hour after. At half past seven in the evening of the following day the body, already in a high state of decomposition was still lying unburied because none of the police doctors had yet arrived though twice sent for by the 'subdelegado'.

—An association of Berlin bankers has commissioned Major Trautmann to visit and examine the Fernando de Noronha phosphate deposits. The minister of agriculture issued the necessary authorization on the 11th inst.

—Dr. Luiz Monteiro Cominhoa has been commissioned by the minister of agriculture to study the agricultural schools of France and other countries of Europe, and to prepare a detailed report on the same. A speciality will be made of the 'fermescoles' of France.

—It was announced on the morning of the 13th that the minister of war, Visconde de Pelotas, now absent in Rio Grande do Sul, had tendered his resignation. The administration of that department is now provisionally in the hands of the minfster of empire, Barao Homem de Mello. In the afternoon of the same day, however, the *Diario Official* denied the report.

—An imperial decree of the 12th instant accepted the resignation of Conncillor Buarque de Macedo, now minister of agriculture, from the position of director of the bureau of public works. His successor will be Dr Antonio Alvares dos Santos Souza, now chief of the 2nd section of the same bureau.

—Dr Maximiano Marques de Carvalho, the physician who proposes to keep yellow fever out of Rio by encircling the city with a telegraph wire, has been denied permission to register under the new electoral reform law because of not being able to present a diploma. Alas! how fast our idols are falling!

—The *Gazeta de Noticias* of the 9th inst. says that it has good foundation for saying that the minister of marine has given orders to two foreign merchants of this city for construction of two ironclads in Europe. These orders are given under the special credit voted by the last General Assembly.

—There were 20 deaths from yellow fever in this city from the 1st to the 12th inst., inclusive.

CENTRAL ARGENTIEE.

The traffic of this line still increases. The receipts for the four weeks ending Dec. 26 amounted to £18,000 against £13,879 for the corresponding period.

The aggregate receipts from Jan. 1 to Dec. 25, 1880—nearly the year—are £227,105 against £175,271. Need we say the increase is very large? The prospects of the line, too, with the Government extensions made, must be excellent.

The line is now, we should think, nearly, if not quite, clearing its guarantee. Last year, 1879 there was a deficiency of profit to cover the guarantee to the extent of £38,787., the deficiency of the previous year, 1878, having been £48,914. The year 1880 having produced some £52,000 additional traffic, and the guarantee deficiency of 1879 having been only £38,778, it is evident the profits of 1880 must be very near the guarantee.

We have lately read interesting articles which endeavoured to show that the Argentine Government had behaved well and generously towards this line. We cannot quite concur in those remarks. The Shareholders only get some 5½ per cent. dividend, whereas, they entered upon the enterprise with the promise of 7 per cent. guarantee. We know the Government say that they pay the guarantee they agreed to give, but this does not cover all the capital expenditure. If the Government had made the line themselves could they have executed the works for less money? Certainly not. Then the guarantee ought to cover the whole of the capital, so that the Shareholders would receive 7 per cent. dividend. That the line will presently earn 7 per cent. on the whole of the capital is highly probable, yet even then, under the terms, the Shareholders may not obtain 7 per cent. dividend.

We think the line has behaved better towards the Government than the Government towards the line.—*Herapath's Railway Journal.*

P. DILLEMANN y Ca., para evitar juicios erroneos en el asunto de la marca PESCADO, hacen constar:—

1°. Que sacaron en el año 1874 Patente por la marca PESCADO en Francia.

2°. Que sacaron Patente de la marca PESCADO en el año 1878 en la Republica Argentina en toda forma para los articulos de FERRETERIA y CUCHILLERIA que acostumbran introducir en este mercado, como marca de COMERCIO y de FABRICA, la cual les fué concedido para SU USO ESCLUSIVO. La Patente fue publicada durante un mes en los diarios, segun lo prescribe la ley, sin que hubo alguien que hubiera protestado contra ella.

3°. Que habiendo sido introducido una imitacion y falsificacion de su marca, acusaron criminalmente la casa que habia cometido este delito. La casa en cuestion, los Sres. Mantels y Pfeiffer, fue condenada y la sentencia publicada en los diarios por cuenta de ella.

4°. Que recien durante la tramitacion del proceso la casa de Mantels y Pfeiffer hubo hacen valor la patente de un fabricante en Francia a la Carpa, y pidio su registracion para Coutaret Denise y fils, la que les fue negada por la oficina de patente por ser PROPIEDAD EXCLUSIVA de P. Dillemann & Co. en la Republica Argentina, como marca de COMERCIO, y de FABRICA.

5°. Por ultimo recurso se dirigio la casa de Mantels y Pfeiffer al ejecutivo en apelacion para obtener el registro de la marca Carpa, y el Exm. Gobierno ha tenido a bien, concederles parte, de lo que es PROPIEDAD NUESTRA, adquirida en toda forma, como lo prescibe la ley.

6°. Al fin diremos, que todos los ferreteros que vienen a nuestra casa, saben que si la marca Pescado ha adquerido una cierta fama es porque hemos trabajado durante muchos años, a espender los articulos de esta clase en la mejor calidad.

En cuanto a las apreciaciones, que ciertas personas se han permitido hacer de nuestro modo de proceder, no hay neccesidad de defendernos, 3½ años de vida comercial en esta plaza bastan para habernos hecho conocer.
